College Park designs and manufactures a full line of anatomically correct, custom built prosthetic solutions. College Park is ISO 13485 certified with an extensive focus on quality testing, and proudly sources and produces all products entirely in the USA. With precise engineering and quality manufacturing, College Park is committed to innovating human locomotion solutions for users all over the world.

The Scout offers reliable energy return and growth to keep up with kids. Blending College Park's Intelliweave® composite technology with durable carbon fiber, this pediatric foot provides smooth motion, strength, and flexibility for play. As kids grow and change every day, the Scout accommodates the journey with a wide size range and size-up foot shell capabilities. This no-maintenance foot is lightweight, fresh water friendly, and built for youth.

MATERIAL FUSION

Children need durability, movement, and versatility. To achieve this, the Scout uses a hybrid material approach—combining Intelliweave® with carbon fiber. College Park's Intelliweave composites are woven by hand in a 3D pattern for ultimate flexibility and strength. The carbon fiber provides a dynamic response and increased energy return. This material fusion offers children the best of both worlds.

ADVENTURE MADE EASY

User-friendly for patients and prosthetists, the Scout is the maintenance-free solution that keeps kids on the go. Building off the success of College Park's Truper foot, the Scout offers a new method to accommodate children's growth, activity levels, and lifestyles.

GROW TOGETHER

Ranging from size 13 to 22 cm, the Scout grows with its companion. This foot offers a unique size-up foot shell that allows the user to adjust to a larger size without needing a new foot.* It also provides the option to easily stack growth plates to accommodate up to 19.5 mm of limb growth. Toddlers, kids, and pre-teens can enjoy exploring with the Scout for longer than most pediatric feet.

**Some restrictions apply. Please see back page for details.*

The Scout offers four mounting options to meet different needs.

TECHNICAL SPECIFICATIONS

FUNCTION		WEIGHT*
Pediatric		183-360 g
